Key Features

eMexo Technologies offers the **Best RPA Blue Prism Training Course in Electronic City Bangalore** with the TOP industry expert trainers.
Here are the key features.

★ Free Demo Class Available

★ Practical Approach

★ Expert & Certified Trainers

★ 100% Job Oriented Training

★ Real World use cases and Scenarios

★ Completed 500+ Batches

★ Certification Guidance

Unit 1: Robotic Process Automation (RPA) Overview

➢ Getting started with (Robotic Process Automation) RPA

➢ RPA Where it applied

➢ Evolution and Future of RPA

➢ Differentiating RPA from Traditional Automation

➢ Defining Robotic Process Automation & its benefits

➢ What RPA is Not (RPAs Limitation)

➢ Bots Types

➢ Areas of RPA Application

➢ How Robotic Process Automation works

➢ RPA development methodology and key considerations

➢ List of Robotic Process Automation Tools

➢ Future of RPA

➢ Comparison of Different RPA Tools

➢ Job Market for RPA

➢ Hands-On

Unit 2: Blue Prism Overview

➢ Blue Prism Introduction

➢ What is the scope of Blue Prism training?

➢ Registering a Blue Prism Account on the Blue Prism Portal

➢ Install, configure and activate Blue Prism

➢ Install SQL Server

➢ Use of Blue Prism User Accounts

➢ Important options and shortcuts for tools

- ➢ Blue Prism Tool Types
- ➢ Documentation availability
- ➢ 3-layer architecture
- ➢ Blue Prism module
- ➢ Studio module
- ➢ Control module
- ➢ Dashboard module
- ➢ Release module
- ➢ System module
- ➢ Hands-On

Unit 3: Working on Process Studio

- ➢ How to create and run a Process
- ➢ Naming Conventions & Best Practices
- ➢ Working with Process
- ➢ Create, Edit, Save, Test, Compare, Delete Process
- ➢ Open and Executing a Process
- ➢ Validating a Process
- ➢ Working with Decision Stage
- ➢ Understanding Calculation Stage
- ➢ Working with Data Items
- ➢ Hands-On

Unit 4: Mastering Process Flow

- ➢ Managing Decisions
- ➢ Working with Choice Stage
- ➢ Getting Started with Collection Stage
- ➢ Handling Loop Stage
- ➢ Circular Paths
- ➢ Controlling Play
- ➢ Set Next Stage

➢ Pages for Organization

➢ Breakpoints

➢ Logical Layers

➢ Hands-On

Unit 5: Inputs & Outputs of Blue Prism

➢ Data Item Visibility

➢ Utilizing Input Parameters

➢ Page Inputs

➢ Inputs and Page References

➢ Working with Stepping and Pages

➢ Step Over & Step Out

➢ Data Item Visibility

➢ Local and Global Data Items

➢ Visualizing Data Items

➢ Making Use of Data Items

➢ Making Use of Data Types

➢ Output Parameters

➢ Start-up Parameters

➢ Control Room

➢ Process Outputs

➢ Hands-On

Unit 6: Business Process

➢ Stages

➢ Blocks

➢ Variables

➢ Start and End Stages

➢ Input and Output Parameter

➢ Calculation and Multi-Calculation Stage

➢ Difference Between Action and Page

➢ Looping and Collection

➢ Initial and Current Value of Variables

➢ Expressions and Formulas

➢ Hands-On

Unit 7: Visual Business Object and Application Modeller

➢ What is VBO and why VBO?

➢ How to import and export VBOs and import Inbuild VBOs

➢ Introduction to creating Application Modelers and App Modelers

➢ Application and Element

➢ Different modes of spy mode

➢ VBO special stage

➢ Code stage and their use

➢ Start and End properties

➢ How to send and receive data form actions with start and end

➢ Dynamic match

➢ Advanced match concept

➢ Advanced error and exception handling

➢ Hands-On

Unit 8: Inbuild VBO

➢ Excel VBO

➢ How Excel is Working and how it is integrated with Excel VBO

➢ Open Excel VBO

➢ Excel to Collection

➢ Select and collect together

➢ Word VBO

➢ Word Document Automation with examples

➢ Email Automation

➢ SMTP – Configuring and Sending Email

➢ IMAP – Reading and Extracting E-mail Data

➢ IMAP – Moving of mails which are read by Automation already

➢ OLEDB VBO

➢ SQL Automation in Blue Prism

➢ Hands-On

Unit 9: Exception Handling

➢ Basics of Exception Handling

➢ Recognizing Recovery

➢ Recognizing Resume

➢ Working with Re-throwing Exceptions

➢ Preserving the Current Exception

➢ Understanding Exception Bubbling

➢ Exception Blocks

➢ Using Exception Blocks

➢ Hands-On

Unit 10: Case Management

➢ Understanding Queue Items

➢ Work Queue Configuration

➢ Working with Defer and Attempts

➢ Working with Pause and Resume

➢ Filters

➢ Reports

➢ Hands-On

Unit 11: Additional Features

➢ Using Safe Stop

➢ Collection Actions

➢ Choice Stage

➢ Grouping of Processes/Business Objects

➢ Logging

➢ Viewer Usage Log

➢ System Manager Options

➢ Grouping of Processes/Business Objects

➢ Recognizing Process and Object References

➢ Working with Export and Import

➢ Using Release Manager Features such as Packages and Releases

➢ Hands-On

Unit 12: Work Queue, Audit, and Advanced Concepts

➢ Work queue overview

➢ Activate a process in WorkQueue

➢ Looping through WorkQueue data

➢ Status updates and status checks

➢ Dependency

➢ Released in a package

➢ Environment and users

➢ Environment variable

➢ Coding standards and auditing with logs available in Blue Prism

➢ Hands-On

Unit 13: Control Room & Dashboard

➢ Introduction to Control Room

➢ Usage of Dashboard

➢ Process Monitoring

➢ Scheduling and Manual Run of Automation

➢ Work Queue and Integration

➢ Environment and its use

➢ Creating the Users inside the control room with different Access Levels

➢ Role and Control Over the User

➢ Create Custom Role

➢ Hands-On

Unit 14: Advanced Features

➢ Undefined Collections

➢ Data Item Initialization

- ➢ Data Item Exposure
- ➢ Casting
- ➢ Code Stage
- ➢ Run Mode
- ➢ Initialize and Cleanup
- ➢ Attribute Match Types
- ➢ Dynamic Attributes
- ➢ Active Accessibility
- ➢ Application Manager Mode
- ➢ Global Clicks and Keys
- ➢ Credentials
- ➢ Environment Locking
- ➢ Resource PC
- ➢ Command Line
- ➢ Hands-On

Unit 15: Additional App Types

- ➢ Mainframe Applications
- ➢ Java Applications

FAQs

1. How is the training organized? How much percentage is theoretical and how much is practical hands-on?

We at eMexo believe nothing beats hands-on practice when it comes to learning a concept. Our teaching methodology is 100% practical and hands-on-oriented. You learn a concept, you practice it then and there with the trainer. We also give you assignments for each topic which you can practice at home and any doubts regarding the topic can be cleared with the trainer the next day.

2. What is the course duration? How and when do you plan to complete the course?

We generally cover our courses in   60 hours, however, we are aware that we can't put a hard- stop to learning with a number. Our trainer will make sure that you have learned everything that is part of the curriculum. This could mean 48 hours or 60 hours, doesn't matter.

3. What is the material provided in the training?

We have industry standard course material which is used by our trainers to train you. At the end of the training apart from the notes which you have taken during the course, we will also provide you with the training material which was used. This training material includes the training content, interview questions, etc.

4. Do you help in preparing for the interview?

Our trainers are working professionals who work in MNCs. They are the expert in their domain and they know exactly what an interviewer looks into a candidate. Our expert trainers apart from sharing the interview questions will also conduct mock interviews to help you prepare for the real interview.

5. Who are your trainers?

Our trainers are industry experts who work in their respective technologies day in and day out. They work in MNCs and are technology experts within their organizations.

6. What is the total batch size per course?

We maintain a strict batch size of a maximum of 5 students. We also provide exclusive one-to-one training as well. Talk to our training partner to get more details.

7. Do you provide certification for the course?

Yes, at the end of training we provide a certification of completion.

8. Will I be joining a new batch or being merged with another batch?

You will be added to a new batch.

9. Is fast-track training available?

Yes, we provide fast-track training as well for those who want to complete the course faster. The curriculum and the total hours required to complete the course will remain the same. However, the trainer will be spending more hours with you to complete the course.

10. Do you assist in job placement?

Our trainers are expert professionals in their organizations and they often act as the interviewer to hire new candidates. Our trainers will help you prepare your resume with industry standards. After all, they know exactly what to look for in a resume.

11. Timings for training - Regular training/weekend training

We provide both regular and weekend training. Talk to our training partner to learn more about the timings.

12. Will you be working on a live project during training?

Yes, apart from doing the hands-on practice our trainer will also be taking a real-world project and working with you for the implementation.

13. What happens if I miss a class?

If you miss a class the content of that class will be taught to you again. With us, you might miss a class but not the content.

14. Can I attend a demo before the actual class?

Yes, absolutely! Talk to our training counselor on phone at **+91-9513216462** or email us at **info@emexotechnologies.com** to arrange a free demo. You can also fill in the contact us form below and we will call you to discuss your training requirements.
